deftly written and beautifully illustrated the worlds of medieval europe third edition presents a distinctive and nuanced portrayal of the greater west during its medieval millennium by integrating the histories of the islamic and byzantine worlds into the main narrative author clifford r backman offers an insightful detailed and often witty look at the continuum of interaction social cultural intellectual and commercial that existed among all three societies this compelling volume surpasses traditional textbook representations of the middle ages by balancing the conventional focus on political affairs especially those of northern europe with equally detailed attention to medieval society as it developed in the mediterranean in addition backman describes the ways in which the medieval latin west attempted to understand the unified and rational structure of the human cosmos which they believed existed beneath the observable diversity and disorder of the world this effort to recreate a human ordering of unity through diversity provides an essential key to understanding medieval europe and the ways in which it regarded and reacted to the worlds around it

covering western history from the ancient world to the current era of globalization the modernization of the western world describes the forces of social change and what they have meant to the lives of the people caught up in them the volume presents the history of western civilization from a historical sociology perspective introducing readers to the analyses of thinkers like Emile Durkheim Karl Marx Adam Smith Ferdinand Tönnies and Max Weber in order to provide tools for understanding how societies function and change this application of modernization theory argues not that what has happened in the west should or even must happen in non western societies but that understanding modernization as a process of social change affords a better understanding of why and how life has changed over the past millennium the interactions of western and non western societies have had a profound effect on each other this is the story of the development of a truly global economy this new edition has been updated to include a final chapter which addresses recent developments economic disturbances in the global marketplace cyberwarfare and the rise of populist movements testing the relevance of classic modernization theory for today featuring a glossary maps and illustrations boxed features and an extensive index this book will be of particular interest to students looking to understand world history as well as those interested in historical sociology and modernization theory

the birth and unfolding of phases in history from neolithic to world pueblo and us history brings together four major works into a single arc of human time michael a susko argues that the rhythm of history is not confined to the rise of empires but begins in the neolithic with triadic 45 year generations that set the first phases of historical time in motion using this framework the book explores neolithic Atahualpa as a non empire model of symbolic and generational phasing this initial work

is in progress world history through egypt judah israel rome and the medieval modern era contrasting empire based and prophetic alternatives ancestral pueblo history as a more egalitarian path outside empire's mold u's history as a largely empire driven model tempered by ideals of freedom and equality this panoramic view balances empire and non empire trajectories showing how civilizations universalize their visions either through force or through sharing covenant and inclusion written in accessible language yet grounded in rigorous patterning it invites readers to see history not as inevitable empire but as a set of choices that continue to shape our present and future

conflict bargaining and kinship networks in medieval eastern europe takes the familiar view of eastern europe families and conflicts and stands it on its head instead of a world rife with civil war and killing this book presents a relatively structured environment where conflict is engaged in for the purposes of advancing one's position and where death among the royal families is relatively rare at the heart of this analysis is the use of situational kinship networks relationships created by elites for the purposes of engaging in conflict with their own kin but only for the duration of a particular conflict a new image of medieval eastern europe less consumed by civil war and mass death will change the perception of medieval eastern europe in the minds of readers this new perception is essential to not only present the past more accurately but also to allow for medieval eastern europe's integration into the larger medieval world as something other than an aberrant other

bringing together seven volumes of research michael a susko presents a grand synthesis of astronomical biological and cultural evolution using a logarithmic model he shows how the universe has unfolded in accelerating pulses from galaxies and planets to the rise of life and symbolic humanity this rhythm of time is then extended through the neolithic tells and into recorded history where generational phases reveal cultures growing and transforming in their own natural cycles three distinct measures of time logarithmic pulses triadic generational units and fifteen year historical generations converge to reveal a patterned fabric of change across billions of years and into the present moment the author demonstrates how time is not a smooth line but a structured unfolding marked by phases of complexity consciousness and cultural renewal the result is both a sweeping map of our past and a reflection on the nature of time itself its rhythms its surprises and its promise of transformations yet to come

a rosetta key for history generations revealing the phases of time this work reveals how generations form the hidden rhythm of history by charting time in 15 year generational intervals an approach first used by the medieval historian bede and later championed by the twentieth century philosopher josé ortega y gasset the author uncovers distinct phases that recur across civilizations rather than relying solely on yearly dating which can fragment historical awareness this generational lens exposes history's deeper coherence the phases found are 1 beginnings and testing 2 establishment and unifying image beginning at 15 20 generations 3 consolidation and opening up 30 generations 4 crisis and creativity 40 generations 5 universalization and inclusion 50 generations and 6 renewal or rigidification 60 generations through detailed case studies egypt israel judah rome and the medieval modern era the author shows how each culture moves through these generational arcs revealing a pattern that mirrors the human life cycle the 30th generation often neglected by historians emerges as a pivotal phase of openness justice and illumination in sum a rosetta key for history does not merely present a new way to measure time it reveals the living architecture of history itself the sequel volume extends this discovery into the americas and contemporary civilization readers are invited on an intriguing journey in which generations become the rosetta key for understanding time's unfolding design

for one two semester undergraduate courses in medieval history this comprehensive well balanced historical survey of medieval europe from roman imperial provinces to the renaissance covers all aspects of the history political literary religious intellectual etc with a focus on social and political themes it presents a complete picture of the complex process by which an ecumenical civilization that once ringed the basin of the mediterranean sea evolved into three other distinctive civilizations latin europe greek eastern europe and asia minor and islam this text differs from others on the subject in that it attempts to abolish traditional clichés regarding the middle ages and promotes critical thinking about our own time and society

french legal culture from the middle ages to the present day has had an impressive influence on legal norms and institutions that have emerged in europe and the americas as well as in asian and african countries this volume examines the lives of twenty seven key legal thinkers in french history with a focus on how their christian faith and ideals were a factor in framing the evolution of french jurisprudence professors olivier descamps and rafael domingo bring together this diverse group of distinguished legal scholars and historians to provide a unique comparative study of law and religion that will be of value to scholars lawyers and students the collaboration among french and non french scholars and the diversity of international and methodological perspectives gives this volume its own unique character and value to add to this fascinating series

in generational mapping through phases bridging ancient civilizations u's and ancestral pueblo history complete three volume edition the author presents a novel approach to understanding history through the lens of generational mapping which reveals distinct phases this comprehensive work explores the rise transformation and legacy of six important historical traditions ancient egypt ancient israel ancient rome medieval modern europe u's history and the history of the ancestral pueblo peoples of the american southwest divided into three volumes the series introduces the theory that ancient civilizations u's history and indigenous histories long viewed through static or compartmentalized frameworks can be studied instead as dynamic evolving processes marked by generational phases in brief they are 1 invisible beginnings 2 establishment and testing 3 consolidation and opening up to outside influences 4 crisis and creativity 5 universalizing and inclusion and 6 renewal or rigidification the

work redefines how we engage with the past weaving together archaeology anthropology and historical analysis to map the interconnectedness of civilizations and the generational forces that shape them from the achievements of ancient egypt to the enduring presence of the ancestral pueblo peoples the generational method offers fresh insight into how time identity and transformation shape the arc of human history this complete edition of generational mapping of world history is for readers seeking a deeper understanding of the structural rhythms that define civilizations across time including the living continuity of indigenous peoples and their place in global history
